

The Contraceptive Implant

	<p>The contraceptive implant is a small flexible rod put under the skin of the upper arm</p> <p>It releases the hormone progestogen</p>
	<p>It is over 99% effective</p>
	<p>It works for 3 years</p>
	<p style="text-align: center;"><u>Side Effects</u></p> <p>Periods may stop, be irregular or longer</p> <p>Some women may get spots</p> <p>Some women report having mood changes and breast tenderness</p>
	<p style="text-align: center;"><u>Other Comments</u></p> <p>It requires a small procedure to put in and take out the implant from your upper arm</p> <p>Some other medicines may effect how the implant works</p>
